Dear Polina Kudelkina,

This letter expresses the great delight Spark Box Studio had in offering you an artist residency during the month of June, 2013. We enjoyed your work and your dedication to your practice. It was great that we found a way to combine the printed process (which is part of our focus) with your felted works. Your quick understanding of monotype printing and silkscreen printing after just two workshops was impressive. The final series of works really showcased both techniques.

We are excited to share, both online and to visiting artists and community members, the work you completed here for times to come. Having Spark Box Studio located in the vibrant town of Picton, Ontario it is our focused to promote the arts and culture within Canada and internationally by supporting artists at all stages in their career. Not only does the artist residency benefit the participant it also benefits the area by bringing new ideas, work and people to the Prince Edward County, Ontario. Thank you for being part of this and sharing your work and ideas with our community and us.

Regards,

A handwritten signature in black ink, appearing to read "Chrissy Poitras". The signature is fluid and cursive.

Chrissy Poitras, Executive Director
